I am seeking asylum in Mississippi to avoid slavery - It's not funny

Does Mississippi have a process where grievances can be redressed, if Child Support Enforcement (CSE) doesn't follow the Federal law ([USC 42 666](#))?

In California the family breadwinner can request a State hearing if there is CSE fraud (Los Angeles County and Monterey County were double billing me for the same children and suspended my drivers license for not paying, ...).

Steve Horn (R-Long Beach, representing the 38th District in the U.S. House of Representatives 2002) and [Alan Lowenthal](#) (D-Long Beach) from California have helped me to audit the CSE agencies in that state via the 'Complaint Resolution and State Hearing process' (<http://gndzerosrv.com/Web%20Pages/lowenthal.htm>).

I would love to share my findings - Can I make an appointment?
